

## Sports Premium Expenditure 2020 2021

### Key points

- The Sport Premium is funding designed to help primary schools improve the quality of the PE and physical activities they offer their pupils.
- Schools must spend the funding to improve the quality of physical activities, but they are free to choose the best way to use the money. Funding is based on the number of 7-11 year old pupils attending the school.
- In 2020 – 2021 we have been allocated a total of £18,330 Sport Premium funds.
- In addition we have a carry over £2,474 from the previous year. The restrictions of lockdown prevented us from spending the full amount by summer 2020.
- In school surveys tell us that children at Bispham Drive Junior School already participate in a wide range of sporting activities such as football, swimming, dance, karate, gymnastics, rugby and cricket.
- It is our challenge to extend the engagement of all children, including those with additional needs, in active, physical experiences designed to promote time spent outside in the fresh air.
- We continue to use Commando Joe as part of our offer but purchased a 2 year licence so there are no ongoing costs for this academic year.

We will use this to develop our existing offer by introducing Forest School activities into our curriculum. These are a range of outdoor based physical experiences designed to build confidence, develop understanding of the natural world including promoting environmental sustainability and encourage children enjoy working and learning outdoors.

### Planned Expenditure

Activity and ethos	Amount
Forest School at Bispham Drive	£17,614
Funding to support the employment of a Learning Mentor with Forest School qualifications and experience to quickly bring the experience into school. This will also support the requirement to provide as much learning outside during the current Covid restrictions	
Forest School is a child centred all-inclusive inspirational learning process that offers opportunity for holistic growth through child led play with the aim of improving children's wellbeing, resilience, social skills, independence, self-esteem, confidence, imagination, empathy	

<p>and creativity. We allow children the time and space to develop these skills alongside personal skills which are considered highly valuable, such as teamwork and problem solving. This happens through a range of hands-on learning and practical experiences as well as their own explorations. Children have access to measured risk and adults respect their rights to play and create their own learning in a natural woodland environment whilst teaching all to know, respect and value nature and its inhabitants. Forest School lays the foundation for positive learning, development, and further life skills to ensure children are emotionally equipped for their future</p>	
<p>Broxtowe Active Schools Partnership</p> <p>In the past the school has benefitted from this association and more children than ever before have represented the school at events ranging from swimming, cross country, basketball and multiskill athletics. We also hosted a handball tournament. While we were unable to participate in the usual competitions under lockdown, we will continue to work with this group and receive the following benefits:</p> <ul style="list-style-type: none"> <li>• Participation in a wider range of tournaments and competitions</li> <li>• Training for Play leaders to support active play outside and particularly to ensure children are accessing games made possible by our recently acquired playground markings</li> <li>• Professionally led interventions for children identified as being reluctant participants in physical education</li> </ul>	<p>£3,090</p>
